## NAMAKOR Holdings, the QMF and la Caisse acquire GGI

**Montréal, September 16, 2016** – NAMAKOR Holdings, the Québec Manufacturing Fund (QMF) and Caisse de dépôt et placement du Québec today announced the acquisition of all outstanding shares of Groupe Graham International (GGI).

GGI is a world leader in user interface technologies in touch applications. The company, which specializes in the design, engineering and manufacturing of customized electromechanical assemblies, works primarily in the aerospace, medical, industrial, transportation and self-serve electronic transaction kiosk sectors.

In addition to providing the financing required to strengthen its international growth plan, this transaction will enable GGI to fully draw on the expertise of its new investors, NAMAKOR Holdings and the QMF. La Caisse, which has invested in GGI since 2011, will continue to provide strategic and financial support.

Eric Saint-Jacques will head the businesses and lead its development. Saint-Jacques is a seasoned executive who has held a range of senior management positions in a variety of industries. These include telecommunications, business management systems, digital media and electronic products. Mr. Saint Jacques brings with him international engineering, operations, manufacturing, business development and sales management experience.

“All key elements are in place to enable GGI to continue to grow. The management team, which has created a business with strong growth potential, combined with the high quality of our strategic and financial partners, as well as our rich technological expertise and unparalleled market reputation, will enable GGI to strengthen its leadership position,” said Mr. Saint-Jacques, GGI’s new President and Chief Executive Officer. “We want to especially thank the Graham family, Francine, Peter and Ian, for having built such a qualified team, and for having so expertly guided GGI for more than two decades.”

“NAMAKOR Holdings’ mission is to acquire niche businesses and promote their growth. We see enormous potential in GGI, which has already been able to attract a prestigious international clientele,” notes Patrick Dussault, NAMAKOR Holding’s President and Senior Partner.

“Through this investment, the QMF hopes to help GGI create value and achieve its full potential. We hope to make available our manufacturing sector expertise to support the business in optimizing its operations,” said Marc Dufresne, a partner at the Québec Manufacturing Fund.

“As a long-term investor, we focus on the sustainability of high-performance businesses. La Caisse therefore has an interest in pursuing its commitment to GGI,” said Christian Dubé, Executive Vice-President, Québec at la Caisse. “With this investment, la Caisse hopes to bring new vitality to the business and further its growth.”

#### **ABOUT GROUPE GRAHAM INTERNATIONAL INC**

GGI is a global leader in human machine interfaces. The company specializes in the design, engineering and manufacturing of customized electro-mechanical assemblies to deliver the optimal user interface for each specific context and environment.
